B.Tech (4th Year), Electronics & Computer Engineering — Guru Gobind Singh University, Delhi | Schooling: Somerville School, Vasundhara Enclave, Delhi

PROFILE

Web designer and frontend developer who designs in Figma and builds fast, responsive websites with **Next.js, React, Tailwind CSS and Vercel**, using an AI-assisted workflow. Experienced in taking a client project from wireframe to live site: **UI/UX design**, development, GitHub version control, Vercel deployment and domain integration. Brings a marketing edge from growing an Instagram page, with reels reaching **5.5M and 2.2M views**. Certified in UI/UX and Figma. Final-year B.Tech student seeking frontend, web design, UI/UX or graphic design roles.

TECHNICAL SKILLS

Frontend	HTML5 • CSS3 • JavaScript • React • Next.js • Tailwind CSS • Responsive Design • AI-Assisted Frontend Development
UI/UX & Design	Figma • Canva • Adobe Photoshop • Typography • Color Theory
Dev & Deployment	VS Code • Git • GitHub • Vercel • npm

Services: Website Design • Frontend Development • Responsive Web Design • UI/UX Design • GitHub Version Control • Vercel Deployment • Domain Integration

EXPERIENCE

Freelance Web Designer & Developer *2026 – Present*

- Design, build and deploy modern, responsive websites for clients using AI-assisted frontend development with Next.js, React, Tailwind CSS and CSS, e.g. a wedding photography brand site.
- Manage code with Git and GitHub, deploy on Vercel and handle domain integration end to end.
- Design clean UI screens and wireframes in Figma (Auto Layout, reusable components, typography, spacing, color systems) with strong layout, visual hierarchy and user flow.

Graphic Design & Content Creation

- Designed social media posts, promotional creatives and presentation graphics in Canva; applied layout, typography, color and branding principles and followed current design trends.

Instagram Content Creator & Social Media Manager — @shreyamanjera

- Built and run a sports and music page, managing ideation, shooting, editing, posting and audience engagement; achieved 5.5M and 2.2M views on individual reels.
- Applied algorithm knowledge (timing, hooks, trends, formats) and planned paid promotions to maximize reach.

FEATURED PROJECTS

Wedding Photography Website

- Designed and built a modern, responsive website for a wedding photography brand. **Tech:** Next.js, React, CSS, Vercel.

CERTIFICATIONS

- Figma UI UX Design Essentials — Udemy — View Certificate
- The Complete Graphic Design Theory for Beginners Course — Udemy — View Certificate
